Sport and physical activity can and does play a major role in promoting inclusion of all groups in society. However, inequalities have traditionally existed particularly in relation to gender, race and disability. The Sport Council for Wales is committed to promoting and developing sports equity, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them. By monitoring the profile of young people in clubs, National Governing Bodies and the Sport Council for Wales can identify any issues relating to under-representation of different groups and can together develop strategies to ensure all young people have an opportunity in the future development and progress in sport and physical activity.
